EDUCATION

Columbia University

August 2022 - May 2024

Bachelor's, Computer Engineering

- Circuit Analysis, Electronic Circuit/Integrated Circuits, Signals & Systems, Fundamentals of Computer Systems, System-On-Chips Platform, Advanced Logic Design, Intelligent Connected Systems, Data Structures in Java, Advanced Programming in C, and Programming & Problem Solving in Python, Introduction to Developing Accessible User Interfaces, Programming Languages & Translators, Computer Networks, Embedded Systems, Human-Centered Design & Innovation.

Providence College

August 2019 - May 2024

Bachelor's, Physics

- Engineering Electronics, Scientific Programming in C++

PROFESSIONAL EXPERIENCE

Columbia University

New York, NY, USA

Computer Assistant

September 2023 - Present

- Staff the IT help desk and respond to user inquiries via phone, email, or in-person.
- Provide technical assistance to students, faculty, and staff with hardware, software, and network-related issues.
- Assist with the setup, configuration, and maintenance of computers, printers, scanners, and other hardware devices across campus. Perform routine maintenance and repairs as needed.

Rhode Island DoIT

Warwick, RI, USA

Network Engineer seasonal Intern

July 2023 - September 2023

- Monitored network traffic and performance, identifying, and resolving issues promptly to minimize downtime.
- Conducted regular network assessments to identify dead areas for improvement and capacity planning.
- Configured and managed Cisco routers and switches, ensuring optimal network performance.
- Installed and configured wireless access points to provide seamless wireless connectivity.

Best Buy

Warwick, RI, USA

Consultation Agent

June 2021 - May 2022

- Contributed to the repair of client hardware, including computer assembly, laptops, smartphones, and audio devices.
- Leveraged excellent communication and customer service skills to sell memberships that provided clients with access to valuable technological assistance, contributing to Best Buy's continued growth.

Providence College

Providence, RI, USA

Helpdesk Assistant

June 2019 - August 2020

- Provided technical troubleshooting support with software & hardware devices for students, faculty, and staff.
- Administered security credentials to Providence College constituents.

PROJECTS & OUTSIDE EXPERIENCE

Smart Biometric Lock System

New York, NY, USA

IoT Project

November 2023 - December 2023

- Engineered a secure door control system utilizing a fingerprint sensor, microcontroller, and electronic door locks.
- Programmed MicroPython & Arduino code for the microcontroller to manage fingerprint enrollment, authentication, and network communication.
- Established secure authentication through fingerprint recognition or passcode input.
- Designed a server-side codebase for configurable databases handling user information and door control decisions.
- [Link to project](#)

Radio Antenna (Providence College)

Providence, RI, USA

Partnered Research

January 2021 - May 2021

- Developed an antenna system demonstrating expertise in signal reception technology.
- Conducted precise measurements of resistance within the antenna structure, showcasing meticulous attention to detail.
- Implemented innovative strategies to reduce resistance by creating shorter pathways, resulting in enhanced overall efficiency.

SKILLS

Skills: CAD, Computer Networking, Data Structures & Algorithms, Jupyter, C/C++, Git, Java, Linux/Unix, Microsoft Azure, Operating Systems, Python, Verilog, System Verilog, Embedded Systems

Languages: Spanish, English
